

## Exercise 1.1 – Preferences

---

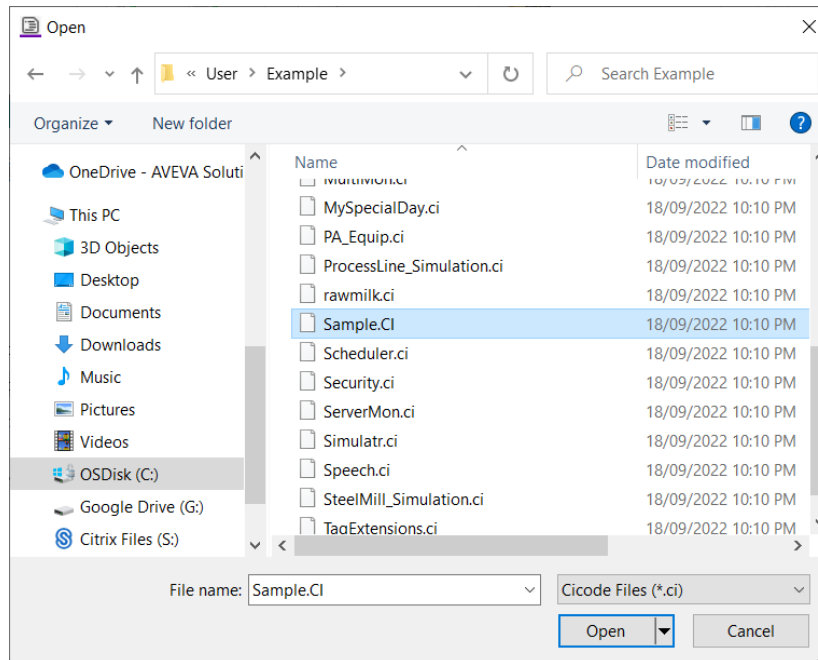

### Learning Outcomes

Upon completion of this exercise, you will:

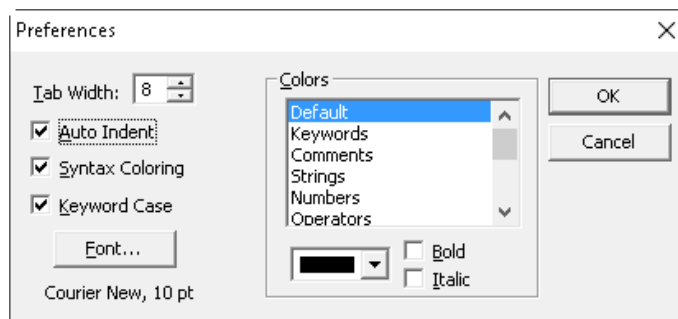

- Configure the appearance of the Cicode Editor to match your own preferences.

#### 1. Change the Preferences of the Cicode Editor.

- i. In the **Example** project, open the **Sample.ci** file.

- ii. Right-click the code window and select **Preferences** from the menu.
- iii. In the **Preferences** dialog box, change the **Tab Width** to 8 then click **OK**.

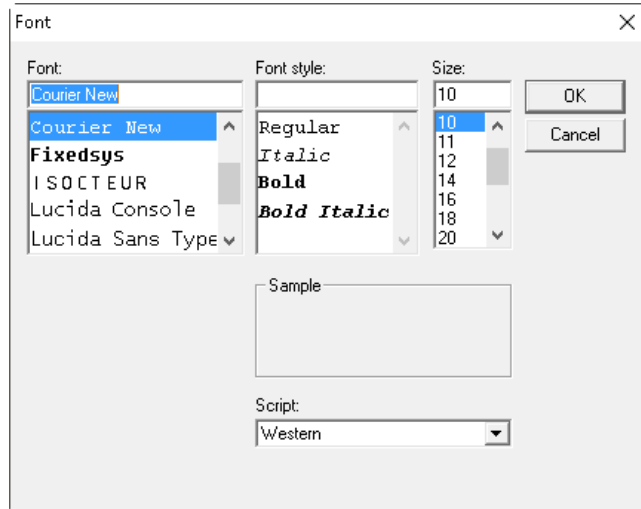

The lines with a tab will move to the right.

## Exercises - Preferences (cont.)

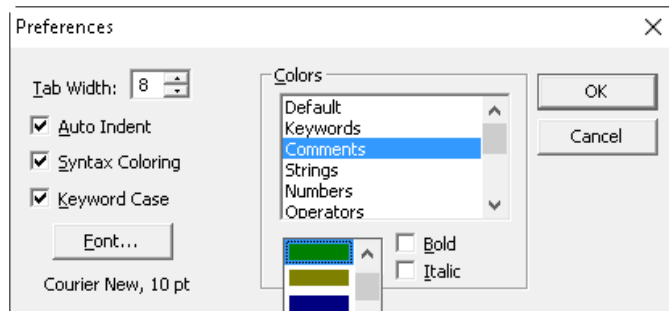

---

- iv. Open the **Preferences** dialog box again and click the **Font** button.

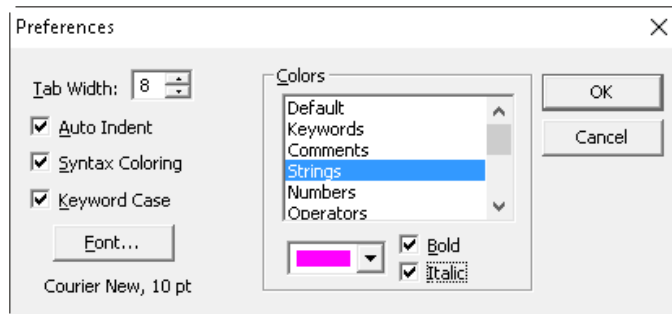

Change the font then click **OK** to continue.

- v. Select the **Comments** element from the **Colors** list in the **Preferences** dialog box. Change the colour.

- vii. Select the **Strings** element and tick the **Bold** and **Italic** attributes.

- viii. Click **OK**.
